

FAST, SECURE ACCESS TO CRITICAL EXPLORATION DATA

PAKISTAN PETROLEUM E&P DATA REPOSITORY

ABOUT PPEPDR

PPEPDR (Pakistan Petroleum E&P Data Repository) offers fast, secure, and centralized online access to quality-assured seismic, well, and physical data. Developed by LMK Resources, this digital platform streamlines data discovery, review, and purchase for E&P companies.

Since its launch, PPEPDR has revolutionized data access in Pakistan's oil & gas sector by introducing cutting-edge management and archival systems like PetroBank. With a user-friendly web interface and a subscription-based model, clients can easily browse, select, and download terabytes of petrotechnical data—saving both time and cost. **This streamlined access supports E&P activities, accelerates exploration decisions, and helps attract foreign investment into the sector.**
